

## General Ultrasound Guidelines

CPT	Exam	Information & Anatomy Covered
76700	Abdomen Complete	Liver, Gallbladder, Kidney, Spleen, Pancreas, Aorta, Inferior Vena Cava (IVC)
76705	Limited Abdomen	Single organ or quadrant; follow-up previous finding (does not incl. kidney, aorta, IVC)
78770	Retroperitoneal Complete	Includes Kidneys & Bladder
76775	Limited Retroperitoneal	For kidneys and/or aorta, iliac arteries, IVC
76856	Pelvic- Nonobstetrical	Transabdominal imaging (overview study of uterus, ovaries, adnexa, bladder)
76830	Pelvic- Nonobstetrical	Transvaginal imaging (detailed study of uterus, ovaries, adnexa)
G0389	IPPE-AAA Screening	Medicare B Abdominal Aortic Aneurysm (AAA) for Initial Preventative Physical Exam (IPPE) *Medicare allows one screening per lifetime
76536	Thyroid	Thyroid gland and immediately adjacent tissue
76870 & 93975	Testicular with Doppler	2 D imaging of the scrotum with color doppler and waveforms to assess blood flow.
76880	Extremity- Soft tissue	Soft tissue lumps only--Not to evaluate patency of veins or arteries
76818	Biophysical Profile	Scores the fetus on motion, movement, breathing, and AFI
76817	Fetal < 10 weeks	Transvaginal Imaging (TV)- for viability-Ovaries & adnexa evaluated. May also be used for Cervical Length

76801	Fetal < 14 weeks	Transabdominal imaging (TA) - first trimester evaluation of fetus and gestational sac. Gestational age and fetal heart rate. Maternal uterus and ovaries.
76805	Fetal Screening > 14 weeks	Transabdominal imaging. Fetal anatomic survey, heart rate, gestational age. Placental position and amniotic fluid volume.
76815	Fetal Limited	Transabdominal Imaging (TA)-targeted ultrasound for Fetus or Placenta. This is not a complete screening.
76816	Fetal- Follow-up	Ordered/performed after a prior fetal ultrasound for a specific reason. If prior study was not performed at SJH, fax report
76536	Soft Tissue Head and Neck	Generally for evaluation of lumps. Thyroid not included.
76885	Infant Hips with Manipulation	Abduction and Adduction
76886	Infant Hips without Manipulation	Neutral imaging only
76506	Neurosonogram	Infant Brain
76800	Infant Spine	Canal and contents
